

# Alhazan Mubarak

---

## PROFESSIONAL SUMMARY

A frontend developer with 2 years of experience doing what I have passion for which is creating unique, responsive, and user friendly web applications. I love simplicity so I try my best to build things to be as simple as possible. I am also very concerned about best practices and prioritize user experience over developer experience.

## CONTACT

- 📍 Okota, Lagos, Nigeria
- ☎ +2349019193284

## WORK HISTORY

### Engineering Student

**Federal University of Technology, Akure** - Akure, Ondo  
12/2019 - Present

- First-year computer engineering student
- Member of Google Developer Student Club, which I participate in teaching people and organising meetups

### Frontend Developer

**Mobwad Collections** - Osogbo, Osun      08/2020 - 09/2020

Mobwad is a local business that deals in making and selling cakes. They also do decorations and catering. I helped:

- shifted the company traditional sales to online retails
- Increased sales by 20%
- maintained the website

### School Teacher

**Modern Day** - Iseyin, Oyo      08/2019 - 04/2020

- Take about 2 classes in science related subjects
- Trained students to participate in 5 competitions, and won in 2
- Organised extra curricular activities for students
